

## Step 1: Create an Account on Tiltify

Navigate over to <https://tiltify.com/> and create your account. Once you do, you will receive a confirmation email to activate your account!

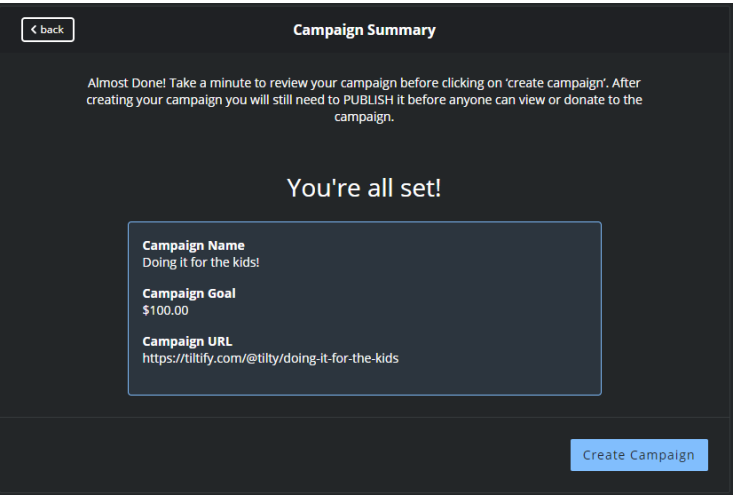

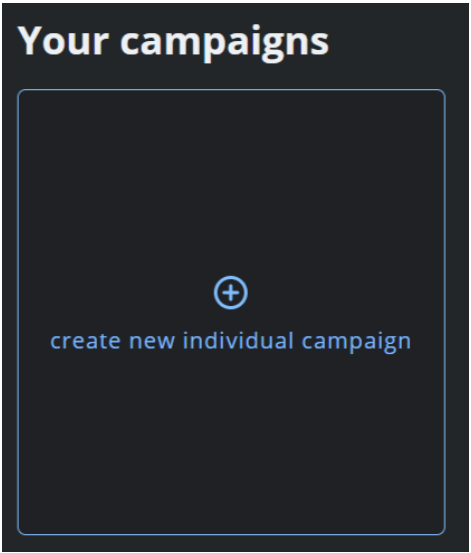

- o **PRO TIP:** If you have a manager, partner, etc. that might need access to this account (to setup campaigns on your behalf, edit incentives on the fly, etc.) we highly recommend you create an account via email instead of using the login buttons for ease of access.

The image shows the Tiltify account creation form. It features three social login buttons at the top: Twitter (blue), Facebook (dark blue), and Twitch (purple). Below these is a text input field for 'Email' with the placeholder 'tilty@tiltify.com'. To the right of the email field is an 'OR' separator and another empty input field. Below the email field is a 'Password' field with masked characters and a strength indicator. Below the password field is a 'Password Confirmation' field, also masked. At the bottom right is a 'next' button. At the bottom left is a 'Log In?' link.

## Step 2: Create your Campaign

- Once you log in, you will see this button under "Your Campaigns - click it!

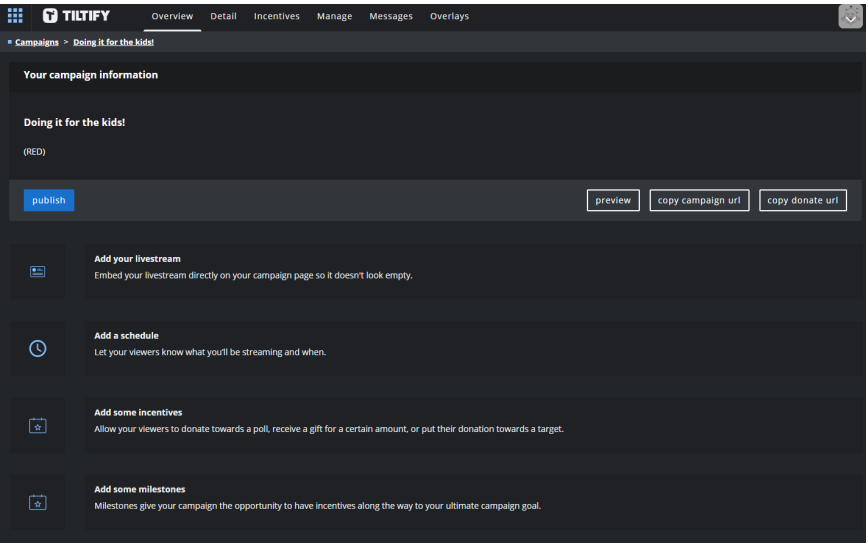

You will then see a series of setup related options for your campaign, including:

- Choosing your charity
- Choosing the type of campaign
- Naming your campaign and URL slug
- Setting your start/end dates, and
- Setting your fundraising goal amount

Once that is all chosen, you will see this summary page - ensure that all the information is correct and click “Create Campaign”

## Step 3: Your Campaign Dashboard

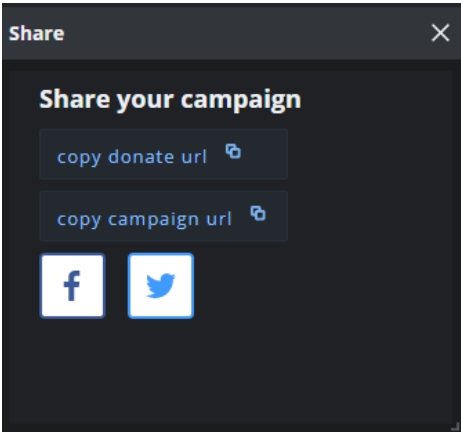

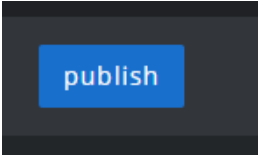

This is your campaign dashboard! You can manage your fundraising campaign here. For more information [check out this article](#) for more information on everything your dashboard can do!

*But if you don't have time for that..*

## Step 4: The Essentials to Start Fundraising NOW!

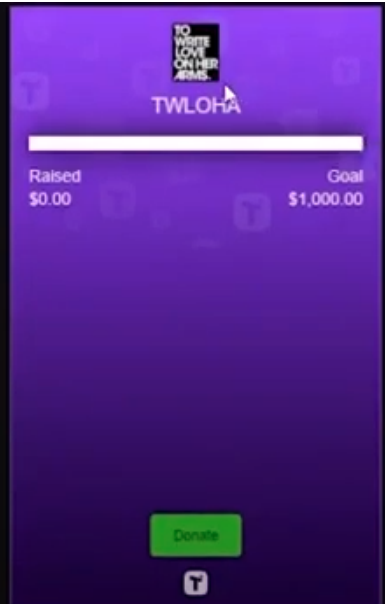

1. **Publish Your Campaign** - Near the top of your dashboard, you will see this: Once you click it, your campaign will be live and fundraising can begin!

2. **Donation Link** - This Share panel will be in the bottom right-hand corner of your dashboard by default. Use the donate URL for chat commands/panel links to direct donations!

6. **Setting up your Tiltify Extension:** Add a panel to your channel to collect donations!

Watch this short video to learn how to keep your viewers watching AND donating with our fundraising extension!

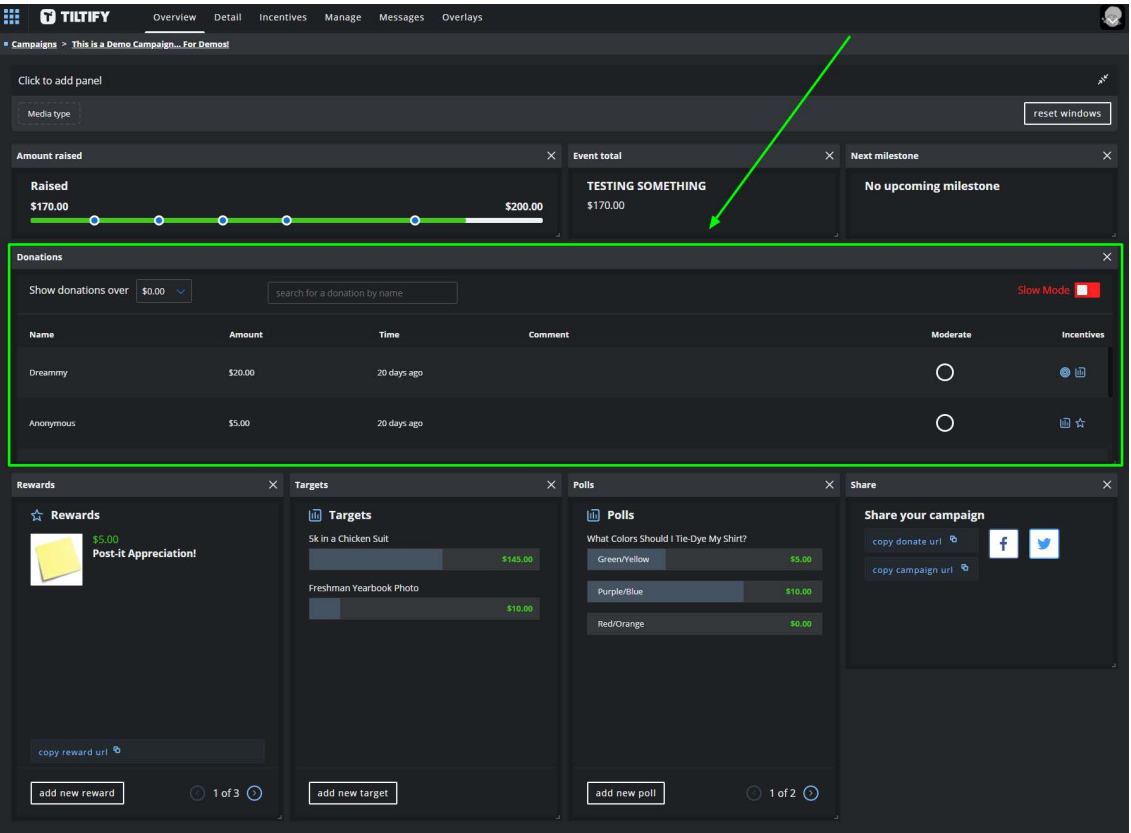

**Supporting Resources**

- [Learn more about how to set up your First Campaign!](#)
- [Learn more about how your Campaign Dashboard works!](#)
- [Learn more about how to integrate with Streamlabs, and StreamElements, and for donation notifications, Schedules, and more!](#)

**Advanced Resources**

- [Learn more about teams and team campaigns.](#)
- [Learn more about adding a donation link to your YouTube videos.](#)
- [Learn more about adding campaign incentives.](#)

3. **Managing your campaign, LIVE!** - When your campaign is published, your Overview page will turn into a fundraising command center! If you are using any of our donation incentives (such as [Rewards](#) or [Polls](#)), you can use the [Manage](#) page to see what rewards were redeemed with their donation! Read and track donations live! You can also use this page to moderate donation comments and remove any that might be offensive  
*(since these comments can also be seen on your public campaign page)*

4. **Donation Overlays-** Be sure add your campaign overlay to display your donation progress bar! Head to your campaign dashboard , *then* click Overlays on the left column. Select the overlay URL you want to add! Here's more information on [Overlays!](#)

5. **Setting up Pop-Up Donation Notifications** - Just like how broadcasters have notifications for their subscribers/personal tips, having donation notifications for your charity fundraiser is a MUST! While you could use our Tiltify API to create your own notifications, we also have [integrations with Streamlabs, and StreamElements](#), that will allow you to create your own notifications **OR** use your existing tip notifications for your Tiltify campaign! Check out the link for more information as to how to set that up!
